In cooperation with:

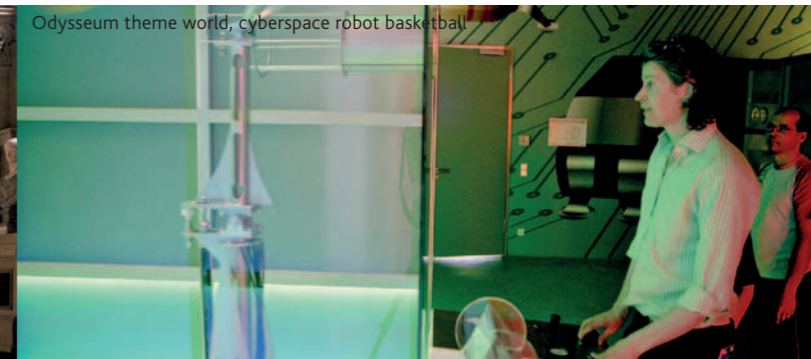

IN 2011 IT WILL BE TIME TO RAISE THE CURTAIN ON THE NEXT INTERNATIONAL TRADE FAIR FOR MUSEUMS, CONSERVATION AND HERITAGE IN COLOGNE. A FORUM OF EXPERTISE THAT IS RENOWNED THROUGHOUT EUROPE CONTINUES TO GAIN IMPORTANCE FOR PARTICIPATING GROUPS FROM THE SECTOR.

Difficult economic times present an opportunity for further development and for a fresh start. EXPONATEC COLOGNE is playing an active role in responding to the restructuring in the culture sector and using this change to implement new ideas and improved communication structures between the market participants.

MUSEUMS AS MEDIUM, MEDIALITY AND MUSEUM

Exhibitions are created through a symbiosis of collections, specialized expertise, research, architecture and design. Innovative solutions for the conceptualisation and staging of museum exhibitions are presented by specialists at the International Trade Fair for Museums, Conservation and Heritage. Qualitative and strategic networking is the topic of the future for museum planners and exhibition designers.

MUSEUM RESTORATION/ CONSERVATION HERITAGE EXHIBITION A CROSS BETWEEN CABINET OF CURIOSITIES AND SCIENCE CENTRE

The International Trade Fair for Museums, Conservation and Heritage is the trend barometer of innovative developments for museums in the 21st century. We think with an eye to the future, while at the same time being committed to the preservation of cultural heritage, and not only in terms of the products and services exhibited.

Tradition and a modern spirit — EXPONATEC COLOGNE features both. In addition to its classic focus on technologies, the fair also provides architects, museum planners and designers with a platform for the presentation of innovative exhibition concepts in the 21st century that are in line with contemporary needs.

As an information and communication platform, EXPONATEC COLOGNE creates a setting for dialogue between culture and commerce in the marketplace itself. Innovation meets heritage at EXPONATEC COLOGNE.
